EXPERIENCE

D'Vinci Group | United Kingdom (Remote) **Sep 2026 – Present**
Senior Software Engineer

Firesight / Meridian House*: real-time event-intelligence platform* *Sep 2026 – Present*

- Built the core event-formation service processing **~150k news signals/day** in near real time, identifying and clustering real-world events as they unfold (Supabase/PostgreSQL, RabbitMQ, Python).
- Built the **IMS (Intelligence Management System)**, the operator web app for managing analyst inputs and review workflows (Next.js, Supabase).

StoryCloud*: image, video and audio stories mobile app (iOS, Android)* *Sep 2026 – Present*

- Took over the existing app and enhanced it: **authentication and authorization** with Supabase Auth and row-level security, Edge Functions, a paginated story feed and in-app subscriptions.
- Made high-quality image, video and audio stories play smoothly with **media caching, prefetching and lazy loading**, cutting load stalls across devices; supported App Store and Play releases.

Tanika Tech Jewels Pvt. Ltd. (Jwero.ai) | Mumbai, India **Sep 2023 – Aug 2026**
Software Engineer, Full-Stack

- Built and maintained full-stack applications using **React, TypeScript, Node.js and MongoDB**, powering real-time chat, CRM and automation platforms used by over **5+ enterprise clients**.
- Designed and optimised responsive interfaces with Material UI, reducing front-end load time by **35%** and increasing user engagement by **25%**.
- Developed scalable REST APIs and background jobs, improving data-processing speed by **30%** and reducing server costs by **20%**.
- Built a low-code chatbot builder using React Flow, Shadcn UI and Tailwind with keyword-triggered flows, reducing manual setup by **40%**; shipped AI-powered chatbots that cut support response time by **20%**.

EDUCATION

Gharda Institute of Technology, Lavel. **Mumbai University**
BE in Computer Engineering ***8.57 CGPA*** *Aug 2019 – July 2023*

PROJECTS

Business OS – AI-Powered ERP SaaS | Next.js, TypeScript, Tailwind CSS, AI Integrations **Link**

- Built an **AI-native ERP SaaS platform** using Next.js, enabling businesses to manage operations, workflows and data from a unified system.
- Designed modular dashboards for CRM, task management and analytics; integrated **AI-driven features** for insights, automation and contextual assistance.

Mentor GPT | Next.js, TypeScript, Express.js, Socket.io, MongoDB, Tailwind **Live | GitHub**

- Developed an **AI-powered mentoring platform** with a personalised, real-time GPT mentor.
- Built backend services with Express.js, Socket.io and MongoDB for conversations, user context and session management; real-time messaging and typing indicators in a Next.js + Tailwind UI.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, SQL, Python, C++, HTML, CSS

Front-End: React, Next.js (App Router), React Native / Expo, Tailwind CSS, Material UI, ShadCN, Zod, Framer Motion

Back-End & Data: Node.js, Express.js, Python, Supabase (PostgreSQL, Auth, RLS, Edge Functions), MongoDB, MySQL, REST APIs, Socket.io, RabbitMQ

AI / LLM: OpenAI & Claude APIs, self-hosted open-weight models (Qwen, GPT-OSS on vLLM), structured JSON outputs, prompt & evaluation loops, RAG basics

Tools: Git, GitHub, Vercel, Docker, Linux/VPS, n8n, Postman, Figma, Claude Code / Cursor

Core CS: Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks, System Design
